

ChemSAR Project's

FINAL CONFERENCE

6th February 2019

Scandic Marina Congress Center

Katajanokanlaituri 6, Helsinki, Finland

ChemSAR project has created an operational plan and standard operational procedures (SOPs) to be used in the maritime search and rescue operations in hazardous and noxious substances (HNS) incidents.

The ChemSAR Final Conference in Helsinki will introduce the project results, namely the common standardized guidelines, chemical data portal, and eLearning solutions and materials all supporting the rescue operations. In the Final Conference, also experts and authorities will demonstrate the advantages of the produced outcome.

Welcome!

Registration is open at <https://konsta.utu.fi/Default.aspx?tabid=88&tap=5258>

Pls register by 23rd of January 2019!

See the programme on the next page

More information:

Kirsi Laitio, University of Turku, kirsi.laitio@utu.fi

Mariikka Whiteman, University of Turku, mariikka.whiteman@utu.fi

ChemSAR project creates uniform operational plans and standard operational procedures to save human lives in maritimes HNS incidents.

Main results

- More efficient rescue operations at sea
- Enhanced transnational co-operation
- Increased capacity and competence of maritime actors

Beneficiaries

Rescue authorities, MRCCs, rescue units, shipping companies, passengers, SAR training academies, coastal inhabitants and environmental authorities.
