Competence and Business Strategy

Turku has the most favourable geographical position of any city in Finland

Stockholm – Turku –
St.Petersburg axis

Maritime, air, rail and road transport routes meet in Turku

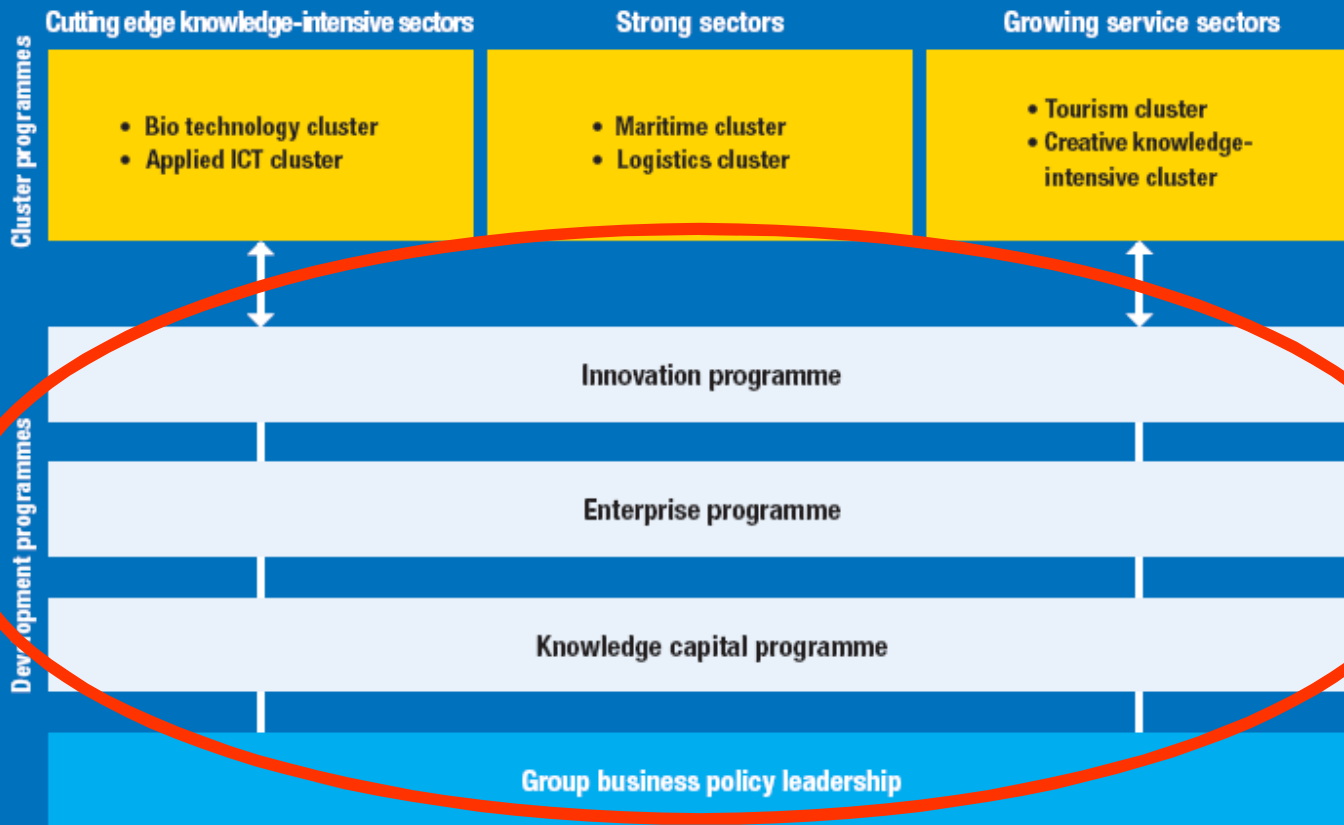

LogiCity – Logistically logical location

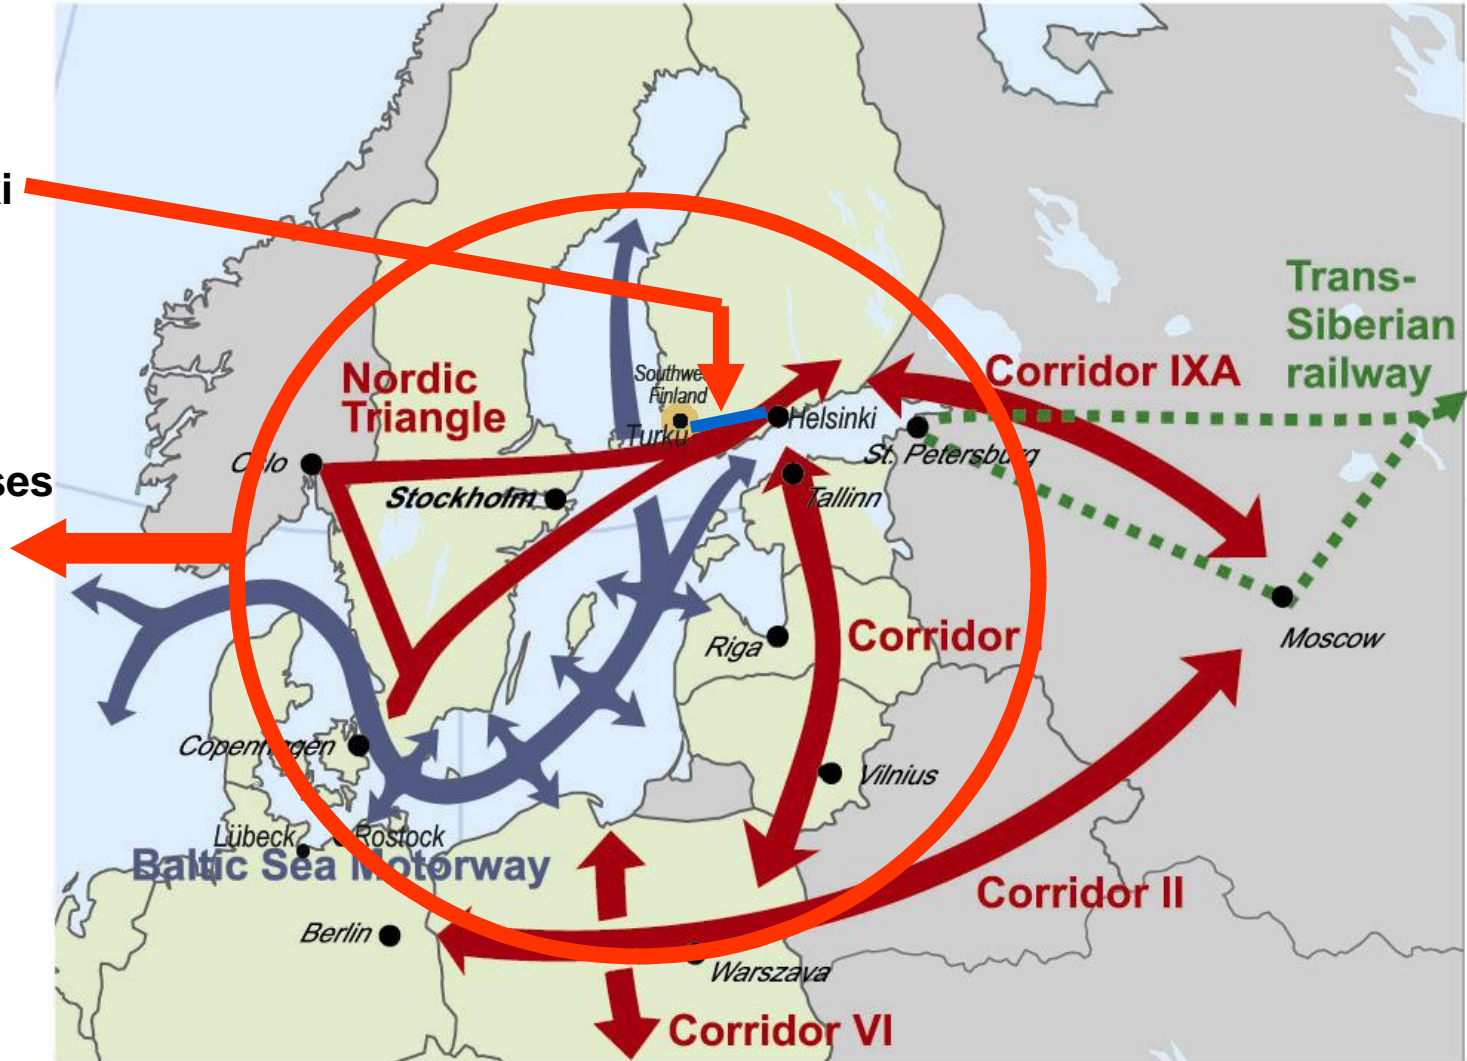

- ❖ LogiCity Phase I, around 400,000 m² of floor space (land use plan 2006).
- ❖ Once LogiCity Phase II is completed (2010–2015), there will be room for more than 1,000,000 m² of floor space.
- ❖ Companies that can add value by relocating in LogiCity include those in transport and value-added logistics, the distribution centre business, warehousing and wholesale operations, and logistics functions for high-tech industries.
- ❖ Located in an area bordered by the airport, the railway connection to Russia and on to China, the motorway into Central Finland and the E18 ring road, and in the immediate vicinity of the ports of Turku and Naantali.
